

# mineraltree®

## Release Notes

v9.5.0

May 31, 2017

### Updates

| Description   | Product/Connector    |
|---|----------------------|
| The vendor details dialog has been replaced by a new, full page design.   | All                  |
| Additional invoice preferences have been added to the vendor details page based on the accounting package integration, so that all invoice dimensions can be defaulted at the vendor level.             | All                  |
| Remittance emails can now be disabled for particular vendors on the vendor details page.  | All                  |
| Credit card payment information now displays on the vendor details page for enrolled vendors.   | All                  |
| Invoice preference dropdowns have been replaced with typeahead dropdowns on the vendor details page.  | All                  |
| MineralTree can now capture attachments from Microsoft Outlook in the "winmail.dat" format.   | All                  |
| Fixed an issue where the payment date was not displaying properly in the payment authorizer application.  | All                  |
| Updated our check template so that the first signature always appears on the left side of the signature area, and when there are two signatures, the second one displays to the right of the first one. | All                  |
| Dimensions are now dynamically marked as required based on the GL account selected on invoice expense lines.  | Intacct              |
| Associated purchase order information now displays on the vendor details page.  | Netsuite             |
| A "Payment Sync Failures" report may now be viewed and downloaded from the Reports tab.   | NetSuite and Intacct |
| An "Invoice Sync Failures" report may now be viewed and downloaded from the Reports tab.  | NetSuite and Intacct |

## Connector Update Required?

| Connector             | Update Required? |
|-----------------------|------------------|
| QuickBooks Desktop    | No               |
| Microsoft Dynamics GP | No               |

\*Cloud connectors (Intacct, NetSuite, QuickBooks Online) are updated automatically. No action is required by the end user.
