Release Notes

v11.5.0

February 8th, 2018

Update

Description	Product/Connector
Added the ability to automatically submit invoices for payment authorization after posting/invoice-approval, based on rules set up in the Customer Admin Application or on the vendor details page.	All
The payment details screen is now anchored in place when Payment Authorizers toggle between the invoices included in a payment.	All
Added an additional confirmation dialog when voiding payments.	All
Customers can now use two different providers for ACH and Wire payments on the same payment account.	All
Accounting Manager users can now self-enroll vendors for card payments by selecting the Credit Card payment type on the vendor details page.	All
Fixed an issue where users were not moved to the next document automatically when creating invoices via the Inbox.	All
Disabling Amex payments for a single vendor no longer disabled Amex payments for an entire company.	All
Added the customer "account number" from the vendor details page to all remittance emails sent to vendors.	All
The Suggestion Box is now working properly again.	All
Fixed an error message that was thrown when users clicked "edit" while viewing the list of payment sync errors.	All
Added "Tax ID" and "VAT Number" fields to the Vendor record in MineralTree.	All
Fixed an issue where notes were not being properly saved when added to new invoices.	All

Description	Product/Connector
Corrected an issue where employee and customer values on Invoices were not syncing properly from Intacct to MineralTree.	Intacct
Location is now mandatory for all invoices when syncing to the root level in Intacct.	Intacct
Added support for the “customer” field on invoice expenses and line-items. This field will now sync back and forth between MineralTree and NetSuite.	NetSuite
Fixed a concurrency issue that arose when multiple NetSuite subsidiaries were syncing to multiple MineralTree companies.	NetSuite OneWorld
Authentication tokens are now refreshed automatically before expiration, so no user action is required to restart the sync with MineralTree.	QuickBooks Online

Connector Update Required?

Connector	Update Required?
QuickBooks Desktop	No
Microsoft Dynamics GP	No

*Cloud connectors (Intacct, NetSuite, QuickBooks Online) are updated automatically. No action is required by the end user.
