

v14.5.0
April 13, 2021

New Features & Enhancements

Description	ERP Specific
<p>Advanced Search Improvement - Review New Invoices</p> <ul style="list-style-type: none"> As part of the new Inbox rollout, we have updated the Invoices Tab so you can easily access newly captured invoices. Select the “Unreviewed Invoices” filter in the Advanced Search to filter for your new Invoices before sending them out for approval. Pro Tip: After filtering, select “Review” from the Action menu and select all filtered invoices to review all of them. 	<p>N/A</p>
<p>Inbox Enhancements</p> <ul style="list-style-type: none"> All unattached documents are now available in the new Inbox. When you delete an invoice and keep the document, or detach a document from the invoice, it will appear in the inbox. From there, you can create an invoice with the document, or attach the document to an existing invoice. 	<p>N/A</p>

v14.5.0

April 13, 2021

<p>Reports Enhancements</p> <ul style="list-style-type: none">• The Vendor Report on the Search Tab now contains the payment schedule details for each vendor if it's different from the company default payment schedule.• We made an enhancement to the Deleted Invoices report by adding the Invoice Memo field, which will provide more context on why invoices have been deleted.	<p>N/A</p>
<p>Billable Invoices - Intacct</p> <ul style="list-style-type: none">• For Intacct customers, we now support the ability to mark an invoice as billable. A new checkbox field under the Expenses or Items tab in an invoice appears to allow Intacct customers to mark invoices in MineralTree to sync to Intacct or if the invoice is checked as billable in Intacct it will sync to MineralTree as checked.• Things to note:<ul style="list-style-type: none">○ The billable field in MineralTree will be unchecked by default.○ We do not support this field for inventory-type items. Therefore a sync error message will appear if the item marked as billable & is an inventory-type item. 	<p>Intacct</p>
