

# Release Notes

v15.1.0

July 8, 2021

## New Features & Enhancements

Description	ERP Specific
Microsoft Dynamics 365 Business Central is now available as an ERP with a dedicated connector.	Microsoft Dynamics 365 Business Central
The Payment Export file now includes <a href="#">an Exchange Rate column</a> to support international payments.	Universal Connector
Added <a href="#">two PO related fields</a> within the Invoice Export file to better support PO matching with the Universal Connector.	Universal Connector
Removed special characters from the export file names to reduce issues when importing the file to the ERP.	Universal Connector

## Bug Fixes

Description	ERP Specific
Fixed an issue for GP customers where Purchase Order Bills could not be updated after capture. This prevented users from making any corrections or updates (adding new invoices approvers, etc) to these invoices after data capture.	Microsoft Dynamics Great Plains

## Connector Updates

Connector	Update Required
QuickBooks Desktop	No
Microsoft Dynamics Great Plains	No
Sage 100	No

Cloud connectors (Intacct, NetSuite, Xero, and QuickBooks Online) are updated automatically. No action is required by the user.
